About the Book

This Book with the title 'Research Methodology and Ethics in Publication' encapsulates a comprehensive exploration of robust research methodologies and the ethical principles underpinning scholarly dissemination. As we delve into the intricacies of experimental design, data analysis, and ethical considerations, our aim is to empower researchers with the tools to conduct rigorous, ethically sound research. By blending theoretical insights with practical guidance, this book aspires to cultivate a community of researchers committed to the highest standards of methodology and ethics in the pursuit of knowledge. - We owe a debt of gratitude to our colleagues, who were chiefly instrumental in favouring us to undertaking this work. - Valuable comments and Suggestions for the book will be acknowledged with thanks.
