**About the Book**

This Book with the title 'Deep Learning Basics' covers the fundamentals of deep learning basics. The five chapters of this book was written in an easily digestible and reproducible format with required information. An effort has been made to present the book in this form and if it proves helpful to the students, we shall consider my effort has been amply rewarded.

# Cover Page

Dr. M. Anusha is Assistant Professor and Head in Computer Applications in our college. She has 12 years of experience in teaching. Her specialization is soft computing.
